

TECHNICAL DATA

CITRA FOAM

Foaming Citric Acid Based Cleaner

DESCRIPTION

Citra Foam is a premium, concentrated, high-foaming liquid acid cleaner that has been specifically designed for removing a variety of inorganic matter, such as milkstone, iron deposits and hard water scale. This product is citric acid based, making it much more environmentally friendly than hazardous nitric acid-based products or cleaners containing phosphates. **Citra Foam** is organic, biodegradable, safe and easy to use. **Citra Foam** does not pose the environmental hazards that are associated with nitric or phosphoric acid-based products. All ingredients are on the Organic Production Systems Permitted Substances List as per CAN/CGSB 32.311-2015. Published November 2015, Amended March 2018, Section 7.

DIRECTIONS

Citra Foam can be applied through a wall mounted or portable foamer or through a central foaming system; can also be applied with a sprayer, a brush or by soaking. Dilute 20-40 mL per liter, depending upon the soil load.

Citra Foam can be applied at temperatures between 4-60 °C (39-140 °F), but is most effective when applied at a temperature range of 49-60 °C (120-140 °F).

FOOD PROCESSING

This product contains citric acid and should be thoroughly rinsed from all food contact surfaces.

PRECAUTIONS

Do not take internally. Avoid contact with eyes and prolonged contact with the skin. Never mix with other cleaners or chemicals (especially bleach).

CONTAINS

Citric Acid.

FOR FOOD PLANT AND INDUSTRIAL USE ONLY
